

# The Answer to the City's Revenue and Public Safety Problem Begins Here.

[www.dirtytruth.org](http://www.dirtytruth.org)

## Welcome to Office Mayor Kasim Reed!

We want to work with YOU and the NEW ADMINISTRATION to reclaim vacant properties. Vacant properties drain bank, community, and municipal resources; discourage economic development; foster crime; and put our children at risk as they walk to and from school.

**WHAT WE WANT: DURING THE FIRST 100 DAYS OF YOUR ADMINISTRATION WE ARE CALLING FOR** A special commission made up of YOU, other city officials, resident & civic leaders, and other stakeholders to explore and design equitable solutions that resolve the vacant property challenge in our city.

Banks donate vacant properties to the City of Atlanta

Vacant properties are placed in the Atlanta/Fulton County land bank

Properties are transferred to a community-based development entity

Community-based developers hire residents to redevelop properties

Properties are added to a community land trust to ensure long-term affordability

**Families move into properties. The tax base increases. Schools stabilize. Communities are safer. Businesses prosper.**

Please respond in writing no later than January 15th to 303 Community Coalition, Inc.
